

Welcome to Alea Knowledge Test!

Below we indicate the instructions that must be followed to complete the knowledge test.

In Alea, we are gaming fanatics and we want to expose an API with the following scenarios:

1. The 5 heaviest Pokémons.
2. The 5 highest Pokémons.
3. The 5 Pokémons with more base experience.

The source of the data is the PokéAPI
(<https://pokeapi.co/api/v2/>).

Must to have:

Create a Java/SpringBoot application

Test coverage of at least 90%

Nice to have:

Integration test

Production ready

Use a readme file to explain to us all decisions that you made, and all improvements that you would like to do and you didn't have enough time to implement.
